BIOBLITZ 2010!

Discover the animals and plants that call Chittering home

Bioblitz is a 24-hour, intensive biodiversity survey and this year it's happening at **Blackboy Ridge Reserve, in Chittering**. Help scientists to search for plants, animals, birds and creepy crawlies, and you'll never look at bushland the same way again.

Starting at 11am on the 23rd and wrapping up at 2pm on the 24th of October, it is a great event for the whole family.

So why not come along and join the fun?

You'll need to register to take part, so please contact:
