

Swan-Canning Online Schools Project

Swan-Canning Online Leadership Program

Are you 18 – 25 years of age with an interest in the Swan - Canning River Catchment?

Do you want to learn new skills and help develop a range of programs for young people to join in to help them understand our river system?

Millennium Kids Inc is looking for 24 young people to help develop a series of workshops for young people from New Norcia to Perth including water quality monitoring, bushtucker programs, tree planting, bird watching, photography and habitat protection. The outcomes of these workshops will be featured on www.millenniumkids.ning.com, a partnership between the Centre for Water Research UWA and Millennium Kids, where young people through schools and community groups can share information on our river systems.

Come up with your ideas and help develop a project in your community for 2011.

The four day training program will be run on weekends and during the school holiday period in January 2011. The course will cover training and costs associated with the following:

- ✚ Food and accommodation
- ✚ MK Ten Step Inquiry Methodology
- ✚ Risk Management and Assessment
- ✚ Project Planning
- ✚ Meetings with river and catchment stakeholders
- ✚ First Aid
- ✚ Reptile Workshop
- ✚ Kayaking on the Swan River
- ✚ MK Facilitator t-shirt
- ✚ Working with Children Check

Cost per participant \$200.00.

For an application pack email info@millenniumkids.com.au or call 0418 923 968 to discuss this opportunity.
